Product highlights

IntelliFill

When the purifier senses water pressure, IntelliFill will start purifying and dispensing water upto the amount you have set. This way, available water is purified, even when you are away or asleep, and you will always be sure of having enough pure water when you need it.

Rechargeable Battery Back up

Just in case your mains supply fails (power cut), the appliance automatically switches over to the battery backup, still making dispensing of 30 liters (maximum) of completely safe drinking water possible.
